

REISSUE APPLICATION DECLARATION BY THE INVENTOR

As a below named inventor, I hereby declare that:

My residence, mailing address, and citizenship are stated below next to my name.

I believe I am the original, first and sole inventor of the subject matter which is described and claimed in United States patent number 6,257,149, granted July 10, 2001, and for which a reissue patent is sought on the invention entitled LEAD-FREE BULLET, the specification of which is attached hereto.

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid by reason of the patentee claiming more or less than he had the right to claim in the patent.

At least one error upon which reissue is based is described as follows:

The issued patent 6,257,149 is partly inoperative because Applicant claimed less than he had a right to claim, thereby jeopardizing the complete scope of protection available for the invention as originally disclosed and described in the patent. In particular, the patent as granted does not include independent claims directed to certain preferred specific embodiments of the invention as disclosed, wherein the composition of the filler, the composition of the core, and the composition of the jacket are specified, as now set forth in new claims 22 to 25. Additionally, Applicant failed to present claims directed to specific disclosed embodiments of the invention in which the bullet is frangible, as now set forth in new claims 26 to 28.

All errors corrected in this reissue application arose without any deceptive intention on the part of the applicant. As a named inventor, I hereby appoint the practitioners associated with the Customer Number provided below to prosecute this application and to transact all business in the Patent and Trademark Office connected therewith, and direct that all correspondence be addressed to that Customer Number.
